PASSION FOR A GREENER CYCLE

100% GREEN ENERGY

With solar panels and reduced energy consumption already in place, we have now partnered with a leading green energy supplier, producing energy locally in the Netherlands.

PACKAGING

We've transformed our packaging by swapping styro-foam for honeycomb cardboard to minimize environmental impact. Our product tags are made from stone paper. Additionally, we are testing a new seal plastic to slash pallet plastic usage by an impressive 56%!

SUPPLIER ENGAGEMENT

We extend our focus beyond our own organization. Actively involving our suppliers in our sustainability goals, we have introduced our 'Code of Conduct', personally delivered to each supplier and thoroughly discussed. Initiating conversations on sustainability is important. We are sharing knowledge and providing support for potential challenges our suppliers may face.

WEBSITE

Consumers can access the website by scanning the QR code on the tag of their pot or planter. Its goal is to inform them about pottery maintenance, production, and other key features. Properly caring for pots contributes to sustainability.

'Bringing words and actions together, we move towards a greener era.'

Here to inspire you!

In this new catalogue we present you our inspiring theme presentations for 2026. This year, we present three unique themes to help you create the perfect mood during this season:

Living In Colour
Bold & Boogie
Warm Smiles

Living In Colour

A joyful spring revival where buttery yellows, soft pinks, and Delft-inspired blues breathe life into everyday basics. Gentle, decorative, and full of optimism.
